

FULLSCALE'S FOLDED DIPOLE ANTENNA

- FULLSCALE'S FOLDED DIPOLE antenna is available for high gain and broad bandwidth.
- FULLSCALE'S FOLDED DIPOLE antenna is a full 10 MHz bandwidth provides optimum performance in single or multi-frequency system, on both transmit and receive.
- FULLSCALE'S FOLDED DIPOLE antenna provide both omni-directional & offset configuration.

Electrical Data	
ยี่ห้อ FULLSCALE รุ่น DP-4ST	
Frequency Ranges* (MHz) :	Available
Number Of Stack :	4
Gain	
Omni Pattern (dBd) :	6.0
Offset Pattern (dBd) :	9.0
Bandwidth - MHz :	10
VSWR :	1.5 to 1 or less
Radiation Resistance (Ohms) :	50
Maximum Power Input (Watts) :	500
Vertical Beamwidth (half power points) :	16°
Lightning protection :	Direct ground
Standard Termination :	SO 239

* Special frequencies are available
