

CDS Model 7500 Thermal Desorption Autosampler

Introducing the NEW CDS 7500 TD Autosampler

As an extension of our popular 7400 Purge & Trap Autosampler the NEW CDS 7500 TD Autosampler offers a unique innovation; the ability for the user to change between TD tubes for air and VOA vials for soil and/or water analysis.

Features:

- Pick and Place robotic arm
- removable trays (72 sample)
- Automated IS addition
- Sample saver
- Leak checking
- Ability to desorb other manufacturers tubes

The CDS 7500 TD Autosampler is Compatible with the [Dynatherm 9300 Series](#) and the [Purge & Trap 7000 E](#).

If interested please [contact us](#) for more information.
